

Sabra Families,

We have finalized our testing protocols and that information is shared below. All tests will be lower nasal swabs.

- Test #1 – This will be a rapid antigen test performed as campers as part of the drop off procedure at camp. Results will be available within 15-20 minutes of the test being taken. Anyone with a positive test will not be admitted into camp or will be isolated until they can be picked up.
- Test #2 – This will be a PCR test performed at Camp the day campers arrive. Tests will be sent to the lab, and we expect to get the results on Tuesday or Wednesday. Anyone with a positive test will be isolated until they can be picked up from camp.
- Test #3 – This will be a PCR test performed toward/at the end of the first week. Tests will be sent to the lab, and we expect the results 24-48 hours after they arrive at the lab. Anyone with a positive test will be isolated until they can be picked up from camp.

We have prepared the following FAQ. Should you still have questions, please contact Craig Neuman (cneuman@jccstl.org; 314-442-3434).

Q: How much is the medical surcharge?

A: Each camper will have \$56 added to their CampInTouch account. This fee has been added to your account and will be charged to your card on file on 5/3/21 with balance of your camp fees.

Q: Is there any pre-camp test required for Masada campers?

A: We are asking Masada campers to get tested before camp because any positive result at camp would cause us to cancel the trip to Colorado.

Q: Is there any pre-camp test required for non-Masada campers?

A: For non-Masada campers, there is no requirement that your camper provide a pre-camp negative test upon arrival. However, any pre-camp testing helps to reduce the chance that your child will test positive for COVID-19 at camp.

Q: If my child is vaccinated, will they still be tested?

A: Yes. Vaccinations are not 100% effective, and there have been documented instances of vaccinated individuals contracting COVID-19.

Q: If my child had COVID-19, will they still need to be tested?

A: Campers with a documented case of COVID-19 whose onset was less than 90 days prior to the last day of their session will not need to be tested. If your camper falls into this category, please contact Terri Grossman (terri@campsabra.com; 314-442-3180).

Q: Can my insurance pay for the Medical Surcharge?

A: No. However, you may explore the possibility of getting these expenses reimbursed through your FSA/HSA account.
